EXPERIENCE

Sr. React Native Developer · Ecater Technology, Noida	Sep 2022 – Present
- Built and maintain 11+ React Native projects (customer e-commerce, multi-vendor, POS, delivery), live on App Store, Google Play and Huawei AppGallery. - Architected a shared TypeScript codebase with reusable UI components and Redux Toolkit/Saga state. - Set up CI/CD with GitHub Actions, Fastlane and EAS and shipped releases via phased rollouts on Play Console and TestFlight. - Delivered hotfixes through CodePush and EAS OTA updates, fixing production bugs without store review. - Integrated AI models (Claude, OpenAI) into production features. - Wrote custom native modules in Swift and Kotlin/Java for thermal receipt printing, analytics SDKs (AppsFlyer, Adjust, Facebook) and Huawei HMS services. - Implemented secure payments, in-app purchases, social login, deep linking, push notifications and multi-language support. - Improved performance with Hermes, FlatList virtualisation and memoisation. - Reused mobile code on the web with React Native for Web; translated Figma designs into pixel-perfect, responsive UI.	

- Developed cross-platform Android and iOS screens in React Native, including navigation drawer, search and custom icon sets.
- Built reusable, responsive UI components and integrated REST APIs with Redux.
- Worked in a team using Git branching, code reviews and sprint planning.

LIVE PROJECTS

Bazaar: Your Infinite Shop [↗](#) [↗](#)

- E-commerce app for clothing, accessories and vehicles with secure payments, social login, order tracking and returns (RMA).
- Integrated AppsFlyer attribution and push notifications; admin tools monitor orders in real time.

Multi Vendor App [↗](#)

- Lets each vendor manage their own products, sales and inventory independently, with role-based access for vendors, cashiers and admins.

Point of Sale App [↗](#)

- Offline-first POS with real-time stock tracking, automated billing and barcode-scanned receipt printing, supporting cash, card and UPI payments.

Delivery Boy App [↗](#)

- Agents accept up to 3 orders at once with live navigation, route optimisation and earnings history.
- In-app customer chat plus an admin panel that tracks all deliveries in real time.

Titan FireFly [↗](#)

- Control app for Titan FireFly pyrotechnic hardware: connects to the devices over Wi-Fi and fires fireworks at multiple locations in sync with music, for stadium and live-event moments.
